## Summary

I am a student at the University of Plymouth currently studying Computing & Games Development, with an interest in software development. I have experience working as part of a team using the agile methodology Scrum and have delivered several successful projects within my time at university. Outside of this, I enjoy building computers and playing video games.

## Education

### University of Plymouth

06/2020

Computing & Games Development • Plymouth, Devon

---

## Skills

- JAVA
- C#
- Agile Software Development
- Unity

---

## Experience

### Plymouth Energy Community

01/2019 - 04/2019

Student Developer • Plymouth, Devon

I was part of a team of students working with Plymouth Energy Community to develop a prototype application to teach homeowners about Damp and Mould within their household. I, as the project lead, lead six successful sprints to successfully deliver the prototype application, alongside developing the UI/UX within my team.
